Lessons Learned

- Build **livelihood**, not merely physical infrastructure
- We should not forget our culture in building our surroundings / environment
- Heritage means both **tangible and intangible assets/resources**
- How to cope with urbanization/modernization, without sacrificing culture
- **Empowering people**
- **Indigenous culture** also supports local economy
- **Review of master plans** and incorporating modern changes
- Culture is people
- Role of local government units in developing **public spaces** and strengthening cultural integration
- Provide platform for **youth engagement** (social media, ICT, etc)
- Learning from people who have experience
- **Competitiveness** of cities and local governments
- **Collaborate with local community**, local artists – build sense of belongingness and ownership
- Look into new ways of addressing **finance** / working with different partners, innovation (ex. PPPP)
- Many are interested to develop culture in their local governments – important to have **capacity building / training**
- Need to revisit / **understand history** of the locality
- Need to have a broader understanding of ‘culture’, beyond events, performances. Culture is our ‘way of life’
- **Connectivity** - Understanding not only your potential, but also surrounding areas
- Involvement of **various stakeholders**

Action Plans

Vigan - Conduct heritage impact assessment & include outskirts - Coordinate with provincial government to institutionalize territorial planning	Baguio - Deliver feedback to mayor and emphasize learnings from this Forum	Municipal Association of Bangladesh (MAB) - Find champions and cities who are willing to integrate culture in their local planning	Vadodara - Conduct cultural impact assessment
Makati - Joining the UCLG ASPAC Culture Committee and actively collaborate with future projects . Activities	Magelang - Coordinate with surrounding local authorities for joint planning - Seek support of UCLG ASPAC and its members in building knowledge and capacity	Trenggalek - Prepare co-working space for skills development of beneficiaries	All-India Institute of Local Self-Government (AIILSG) - Integrate culture as a topic in the next South Asian Cities Summit
Jakarta - Report to the Gov. and emphasize cultural protection - Regrouping of stakeholders & develop city identity and branding *Recommendation to review next submission to UNESCO World Heritage Cities	Male' - Develop plan to ensure local economic development without compromising local culture	Solo - Encourage and create more programs in Solo based on success stories from other cities	Center for World Dance Studies (<i>tbc</i>) - Conduct regular meetings with local communities to find out their problems and create solutions - Protection of local wisdom
